Responsible Behaviour Plan for Students

1. Purpose

Education Queensland's Outdoor and Environmental Education Centres are committed to provisions that ensure all young Queenslanders have the right to a quality education.

Our strength is our commitment to providing every visiting student and teacher with an engaging and educational learning experience. Programs are designed to meet the educational needs of students and contribute toward:

- Building students respect for "self, others and place";
- Developing a desire for deep understanding and lifelong learning;
- Preparing young people to become caring and informed citizens;
- Developing respect and empathy toward sustainable values and practices; and
- Authentic learning experiences that link with key priorities and policies.

All staff have a responsibility to support progress toward these goals. Responsible and informed behaviour is integral in assuring the well being of all and protection for the environment.

2. Consultation and data review

This plan has been developed through consultation with centre staff and engaging with visiting schools and is built upon proven and successful site operations and practices which best support safety, welfare and learning for all students and staff.

3. Learning and behaviour statement

Toohy Forest Environmental Education Centre operates under the belief that for effective teaching and learning to occur, appropriate relationships must be developed and maintained. Each individual (teacher and learner) has personal rights and responsibilities which affect their relationships with others. The common goal is to support a learning environment which provides optimal learning and development for all.

Our Centre community has identified the following site values which promote the highest standards of responsible behaviour:

- Respect for Yourself
- Respect for Others
- Respect for the Environment
- Participation/Active involvement

4. Processes for facilitating standards of positive behaviour and responding to unacceptable behaviour

• Universal behaviour support

Visiting School Responsible Behaviour Plans, and/or their policies and procedures, will be recognised and supported by the Centre, except where they conflict with site policies regarding safety, welfare and learning.

Incidents of bullying and cyber bullying will be addressed collaboratively between the school, teachers, administration and Toohy Forest Environmental Education Centre administration to ensure that the school's policies and procedures are implemented.

The Code of School Behaviour

Better Behaviour
Better Learning

Respect for Yourself

Individuals have the responsibility to respect themselves.

In demonstrating this students will / need to:

- Wear appropriate sun smart clothing.
- Wear appropriate foot wear.
- Follow safety instructions.
- Apply common sense in unfamiliar environments.
- Communicate with staff about concerns or anxieties.

Respect for Others

Individuals have the responsibility to act safely and reasonably according to Government laws, Education Queensland guidelines, and Centre procedures.

In demonstrating this students will / need to:

- Respect others' rights.
- Respect others' safety.
- Respect others values and beliefs.
- Respect others' abilities.
- Be supportive, thoughtful and helpful.

Respect for the Environment

Individuals have the responsibility to respect the environment.

In demonstrating this students will / need to:

- Respect and protect property/equipment.
- Respect and protect vegetation and wildlife.
- Practise minimal impact strategies in natural areas.
- Prevent litter.

• Targeted and/ or intensive behaviour support

Toohy Forest EEC works with the visiting school to facilitate targeted programs for individuals or groups of students that include specific behavioural learning objectives. In supporting students, collaboration is vital, and visiting schools will be contacted and involved if a student engages in serious misconduct.

5. Emergency responses or critical incidents

It is important that all staff have a consistent understanding of how to respond to emergency situations or critical incidents involving severe problem behaviour. This consistency ensures that appropriate actions are taken to ensure that both students and staff are kept safe. **Offsite location** of activities must be considered in an appropriate response to an **emergency, critical incident** or **severe problem behaviour**. Wherever possible contact will be made with the visiting school's administration in such cases to determine an appropriate strategy to ensure that both students and staff are kept safe.

An **emergency situation or critical incident** is defined as an occurrence that is sudden, urgent, and usually unexpected, or an occasion requiring immediate action.

Severe problem behaviour is defined as behaviour of such intensity, frequency or duration that the physical safety of the student or others is likely to be placed in serious jeopardy.

Basic defusing strategies

Avoid escalating the problem behaviour

(Avoid shouting, cornering the student, moving into the student's space, touching or grabbing the student, sudden responses, sarcasm, becoming defensive, communicating anger and frustration through body language).

The Code of School Behaviour

Better Behaviour
Better Learning

Maintain calmness, respect and detachment

(Model the behaviour you want students to adopt, stay calm and controlled, use a serious measured tone, choose your language carefully, avoid humiliating the student, be matter of fact and avoid responding emotionally).

Approach the student in a non-threatening manner

(Move slowly and deliberately toward the problem situation, speak privately to the student/s where possible, speak calmly and respectfully, minimise body language, keep a reasonable distance, establish eye level position, be brief, stay with the agenda, acknowledge cooperation, withdraw if the situation escalates).

Follow through

(If the student starts displaying the appropriate behaviour briefly acknowledge their choice and re-direct other students' attention towards their usual work/activity. If the student continues with the problem behaviour then remind them of the expected school behaviour and identify consequences of continued unacceptable behaviour).

Debrief

(Help the student to identify the sequence of events that led to the unacceptable behaviour, pinpoint decision moments during the sequence of events, evaluate decisions made, and identify acceptable decision options for future situations).

Physical Intervention

Staff may make legitimate use of physical intervention if reasonable non-physical interventions have been exhausted and a student is:

- physically assaulting another student or staff member
- posing an immediate danger to themselves or to others.

Appropriate physical intervention may be used to ensure that the duty of care to protect students and staff from foreseeable risks of injury is met. The use of physical intervention is only considered appropriate where the immediate safety of others is threatened and the strategy is used to prevent injury. Physical intervention can involve coming between students, blocking a student's path, leading a student by the hand/arm, shepherding a student by placing a hand in the centre of the upper back, removing potentially dangerous objects and, in extreme situations, using more forceful restraint.

It is important that all staff understand:

- physical intervention cannot be used as a form of punishment
- physical intervention must not be used when a less severe response can effectively resolve the situation
- the underlying function of the behaviour.

Physical intervention is not intended to be used as a response to:

- property destruction
- school disruption
- refusal to comply
- verbal threats
- leaving a classroom or the school, unless student safety is clearly threatened.

Any physical intervention made must:

- be reasonable in the particular circumstances,
- be in proportion to the circumstances of the incident
- always be the minimum force needed to achieve the desired result, and
- take into account the age, stature, disability, understanding and gender of the student.

The Code of School Behaviour

Better Behaviour
Better Learning

Record keeping

Each instance involving the use of physical intervention must be formally documented. Records will be completed as required by the visiting school.

6. Consequences for unacceptable behaviour

Students may be withdrawn from activities for persistent or serious misconduct.

Persistent unacceptable behaviour reported to Centre Administration will be reported to the visiting school's administration.

Students may be removed from activities (indefinitely) or excluded from the remainder of the program by Centre staff for the following reasons:

- Criminal behaviour;
- The student's continued presence is a serious threat to their own safety or the safety of others;
- Breach of the visiting school's Responsible Behaviour Plan and/or policies and procedures;
- Premeditated vandalism.

In the event of a prohibited substance being found with / or consumed by a student, the Centre will enact the following procedures:

- Health status of student will be determined and medical support sought if necessary.
- Substance will be confiscated and secured.
- Any other people involved will be identified and managed accordingly.
- Police Service will be notified if the substance is suspected as being illicit.
- Student's School Principal will be contacted. Strategy for informing parent / caregiver will be negotiated along with procedures for transporting student from the Centre.
- Executive Director School Improvement will be notified and a report will be prepared.

7. Network of student support

The resources of Toohy Forest EEC will be used to complement the network of support provided to students by their base school.

8. Consideration of individual circumstances

Toohy Forest EEC will work with the visiting school to devise programs that cater for the diverse needs of all students. Each incidence of inappropriate behaviour will be considered in relation to the particular situation and context, the individual circumstances, actions of the student and the needs and rights of school community members. Judgements will be made in the light of the central aim of the Centre to provide high quality environmental education experiences for students and teachers.
